Quote

“There was an important job to be done and Everybody was sure that Somebody would do it. Anybody could have done it, but Nobody did it. Somebody got angry about that, because it was Everybody’s job. Everybody thought Anybody could do it, but Nobody realized that Everybody wouldn’t do it. It ended up that Everybody blamed Somebody when Nobody did what Anybody could have done.” - unknown author

Access & Functional Needs

- **C**ommunication
- **M**aintain Health
- **I**ndependence
- **S**afety, Support Services, Self-Determination
- **T**ransportation

Discussion

- How are your response services reliant on community functioning in these areas?
- How do you support community functioning in these areas?

Access & Functional Needs demand a whole community approach – everybody trained, anybody can speak up, and somebody focused

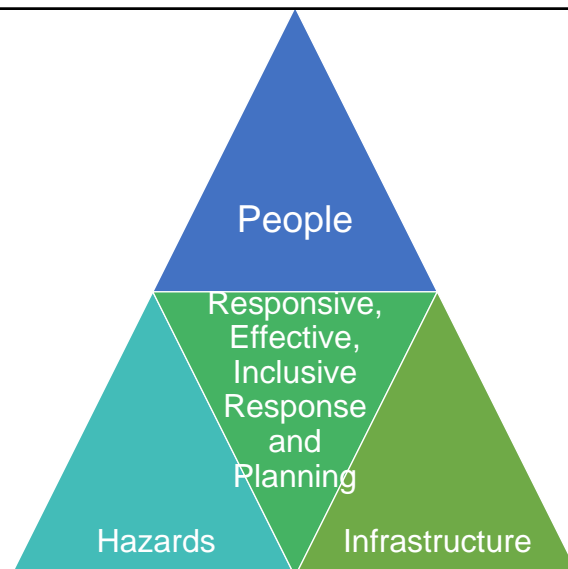

- Community-centered and system-flexible – CMIST framework as a “Watch out” structure
- Integrating non-traditional partners
 - Government leaders
 - Social service non-profits
 - Cultural navigators
- Everyone is a responder, but not everyone is resourced like one
